VISION : To emerge as a center of excellence by producing technically sound and ethically strong engineers who will be adaptive, accommodative, innovative and co-operative by nature coupled with leadership quality in order to serve the industry as an effective resource, encouraging them to go for higher study and also motivating them to become successful entrepreneurs for generating employment to serve the society and the nation in ultimate.

MISSION : ★ To create an environment conducive to development of innovative ideas, entrepreneurship and human values along with the emergence of highly skilled engineers and future leaders.
★ To impart knowledge and training in modern, creative ways, compatible with industry and society at large, to address socio-economic challenges from local to national levels.
★ Collaboration with academic and scientific institutions all around the world to improve the academic and research environment in order to nurture creative minds and talents.
